High class
Revolution " revolution girl
Moves like light
Like a stealth in the night
Comes with a cold reply
She's a piece of refinement
Perfect alignment
can you feel the revolution
lasers turning
issue a thermal warning (don't you know)
They'll be a revolution

Oh boy she's gonna tear it up (and)
Your never ever gonna come down
Oh yeah you'll be lost in her

9 to 5 I work for this
revolution " revolution girl
I work under light and
all through the night (but)
when Saturday comes I'll make my own
piece of refinement
Perfect alignment
Can you feel the revolution
Lasers turning
Check it moving
Touch it Can you feel the revolution

repeat chorus

High class
Revolution " revolution girl
Moves like light
Like a thief in the night
Is coming for me with thermal eyes
My piece of refinement
Is out of alignment
Now I get to feel the revolution
Lasers turning
Issue a thermal warning
The pretty metal thing is out of control
