Damn what's up
Girl you looking so fly like a G-6
Wanna join your plane so we travel over seas
Duces
Bright light on your poky lips and mighty hips
Real talk so bad with your Louis V
Let me fix you to my band
So you sing for me
No game playing come on just rock (eh eh)
Like a height in the sky no turbulence
Be my pilot and i will be the assistance
Life on a taste go be delicious
Get me on your vibe let me put you on a freak on (yeah)
I'm the man you can lean on
Let's go!

[Fizzi]
The way you shawele
You should give it to me
Today today today
I go taste your honey
Because you're too fine
I go call you cherie
I will take no alibi
Gotta be my baby
