"Hearts"

My heart goes back in its cage
I am paralyzed
The rainbow turned black and grey
I am colorblind
I take everything away
But some things I leave behind
Oh, it's a risk I don't wanna take
I wanna go back in time

The moon falls into place
I am out of time
Please give me some hotter space
I never saw the sun
I take everything away
But some things I leave behind
Oh, it's a risk I don't wanna take
I wanna go back in time

And oh, you better believe it
That you've gotta let go
You better start breathing

My heart goes back in its cage
I am paralyzed
The rainbow turned black and grey
I am colorblind

And oh, you better believe it
That you've gotta let go
You better start breathing
You've gotta let go
