

A Day Overdue "Scream"

Visit "[Scream](#)" on MotoLyrics.com

Last summer was so long ago, i can remember the
Minuit i met you, i could never let you go. I miss your
smile and the taste of your lips, the look in your eyes
and the swing of your hips. You've got my head in a
spin wonder where you been.

Give in tonight, be careful what you wish for because it
might just come true.

This summer could be our last - Kiss me like you mean -
Kiss me like you mean it. Breathe in Breathe out you
sure know how to get around screaming out loud get
around round get around round baby tonight.

Give me one more minute to prove i can sweep you off
your feet, your heartbeat take your time to breathe girl
its all you need. You've got me right where you want
me, you know you had me long ago you had me from
hello

Give in tonight, be careful what you wish for because it
might just come true.

This summer could be our last - Kiss me like you mean -
Kiss me like you mean it. Breathe in Breathe out you
sure know how to get around screaming out loud get
around round get around round baby tonight.

Breathe in! Breathe out!!
