Amil feat. Carl Thomas

Quarrels

Acting like my peeps, but I know that's how you tricked me

Love to see me get high, love to see my tipsy

Heard you even wanna stick a little chip in me

You been trying to play me close ever since my shine

Wanna take me to dinner, feed me shrimp and swine

You said, "Amil I want you to meet a good friend of mine

His name is Money and we partners till the end of time"

Introduced me to your clique, hate, envy, lust and greed

Said you want the whole world in ya custody

And if I give you my soul you'll give me luxuries

Said you could hit me up wit power, it's just up to me

I turn you on when I'm in short skirts and tight jeans

You want my kids to write Santa and celebrate Halloween

Told me sell my people crack and get rich off fens

You love the number 6 but hate the number 13

Chorus: [Carl Thomas]

We'll have some quarrels

Some disappointments

And a whole lot of problems

And you will except me

[Amil]

You wanna, be the one to pick me up when I fall

Told me hang Casear bojease on my living room wall

It was always something bout you that made my skin crawl

You turned me into a player and showed me how to ball

You give me rewards when I rob and steal

Want me to abort my babies and get on the pill

You put burners in the hood so each other we kill

I see your eye watching me on the dollar bills

When I got the scoop on you, it just made you mad

Cause I moved out your crib, packed all my bags

Them days I turned to you was the days you laughed
You used to smile every time I pledge allegiance to the
flag
We speak now and then but we ain't smacking hands
You be up in the clubs asking me for a dance
Still trying to convince me to go cheat on my man
Begging me to please give you just one more chance

Chorus:

[Amil]

When we was kids you was the one who taught me how
to lie
Said I could always use you as my alibi
And you kept me from knowledge, wisdom, and the
most high
Had me believe God had blonde hair and blue eyes
Our relationship went sour since I found the truth
You know you can't have me so you fuck with my youth
You got all my phones tapped, I gotta talk at booths
I learned an eye for an eye and a tooth for a tooth
You built Sodom and Gomorra for us all to live in
When we was cool you used to tell me all your visions
Like how you gonna rule the nations under one religion
You got this New World order, it's like a big prison
You said you wanna be worshipped from noon to noon
Nothings gonna get better is what we all assumed
Cause nights is getting shorter and it's snowing in June
I see you working overtime cause you out of here soon
