(Verse)

The next time that we're both hanging out  
Will you believe that my heart is made of a seashell?  
We placed both of your hands onto my chest  
And place that seashell next to your ear.

Now let me ask you this  
Baby what can you hear?  
Except for the sound of the waves burst into ocean.  
If you can block out all of the noise  
And if you can, please tune it to my voice.

(Chorus)

Cause I have built you a giant butterfly  
We could ride it, we could ride it, we could ride.  
Just make sure, baby girl, to make your hands right into  
wings  
I'll make sure that we will be alright.

(Verse)

The next time that we're both hanging out  
Will you believe me when I tell you that I love you?  
Will you replace your heart with a brand new heart's  
crab shell?  
Then I'll replace mine with one as well.

Cause it's that one hair on your lips that I love best  
And when I'm down it's what I like to remember  
My times are more times a day  
I think of that hair on your lips and what I say

(Chorus)

I have built you a giant butterfly  
We could ride it, we could ride it, we could ride.  
Just make sure, baby girl, to make your hands right into  
wings  
I'll make sure that we will be alright,  
Yeah, I'll make sure that we will be alright,  
I'll make sure that we will be alright.
