Let me lay you down, where we can't be found  
Somewhere in the dark, out where the wild things are.  
In the midnight mist, I will steal your kiss,  
If we get that far, out where the wild things are.

It's gonna be alright.  
We're gonna have a good night.  
We got a little starshine.

Even if the sky is fallin', it only means heaven's come  
down.  
And when we hear the angels callin',  
they're singin' 'bout the love that we found.

It's gonna be alright.  
We're gonna have a good night.  
We got a little starshine.

Let me free your mind, and you just might find,  
That way down in your heart, that's where the wild  
things are.

It's gonna be alright.  
We're gonna have a good night.  
We got a little starshine.

Even if the sky is fallin', it only means heaven's come  
down.  
And when we hear the angels callin',  
they're singin' 'bout the love that we found.

It's gonna be alright.  
We're gonna have a good night.  
We got a little starshine.

Even if the sky is fallin', it only means heaven's come  
down.  
And when we hear the angels callin',  
they're singin' 'bout the love that we found.

It's gonna be alright.

We're gonna have a good night.  
We got a little starshine.  
Yeah

It's gonna be alright.  
We're gonna have a good night.
