

A Dreadful Fall "Shake It Fast"

For the bitches...
Shake it fast but watch your self
Show me what your working with
Shake it fast watch yourself
Shake that ass but watch your self

A little drink of alcohol
Will have her jumping off the wall
And while she's waiting for a dreadful fall
She loves herself and she loves it all
(in second she'll get up
And in a minute will get fucked up)(2x)

What are you waiting for? what are you waiting for?
Get down, get down(2x)

Get down.

Don't be shy baby, just shake it for me
Don't be shy baby, just shake it for me
Don't be shy baby, just shake it for me

Show me what your working with.
