[Intro: Cee-Lo] I gotta be by myself, gotta be by myself
this time Whoa x2 [Verse 1: Asher Roth] In the backseat
screaming out loud In the backseat screaming out Ash
is young, attractive, handsome bachelor, awesome
rapper Got a knack for vernacular when I perform
spectacular I'll have any girl that I want, I'm a take the
girl in the front Boobs bounce when I tell the crowd
jump, honey, come backstage I just want to have fun
But I'm too young to be locked down, not now Need a
new car, drive around with the top down New broad
with her bra and her top down Chillin' in the backseat
screaming out loud [Chorus: Cee-Lo] She wants to be
my lady but I don't see her She wants to be my lady but
I'm a free bird I gotta be by myself, gotta be by myself
this time I gotta fly by myself, go get high by myself
this time [Verse 2: Asher Roth] The cycle is Shawn
Michaels (heartbreak) And yeah I like you but not
enough to wife you Say, I'm nice, true and you think I'm
the right dude But there's another girl just like you (like
who?) I'm on the road, another night, another show
New event in a new time zone And the live show is so
mind blowing And it's my show so you know that I'm
blown (you know?) No text gonna give me head, Long
distance just ain't my thing Yeah I'm single, don't need
no ring, I'm a free man now, I don't need no strings,
sing [Chorus] [Verse 3: Asher Roth] If you're cool with
nights at the pool Jacuzzis and groupies, groupies and
booze And no rules, I'm only 22 I need to watch football
and hang with the crew But if you don't get mad when I
get fat Cause all I do is eat, drink, smoke weed and rap
And play Madden then dag You're pretty rad and I take
it all back, c'mon [Chorus] Just keep clapping your
hands, Feels good, feels nice and warm in here right
now I'm feeling free, if you feel free, clap your hands,
ah, ah, ah, c'mon [Chorus]
