Feel it

Regulate it, shake, and mentally rave  
This single heartbeat released to escape  
Feel when it's real and never think twice  
And just surrender to the moments in life  
Come on!

Feel it

Every time I've seen you cry  
Just by looking in your eyes  
I was feeling, my heart was took away  
For every time you made me smile  
For every moment in your life  
You can feel it, your heart was never gone

Come on!

Feel it

The beat from within to outside  
The natural rhythm of life  
Keep track of instincts, trust your inside  
Follow your heart for these moments in life
