

## **A Fine Frenzy "Lifesize"**

Visit "[Lifesize](#)" on MotoLyrics.com

We stood so tall we caught a plane  
by the wing and held it  
Until we found it a place to land  
We layed across the ocean wide  
Bridged the gap in record time  
The people traveled across and kissed our hands

All for love we become

Larger than lifesize, wondersome  
Great in the eyes of someone  
Larger than lifesize we become  
Great in the eyes of someone

We smiled so bright the sun went down  
Rose above the maddening crowd  
We lit the streets with the sweetest glow  
We held the globe and made it turn  
Wandered through the universe  
The men of science observed through telescopes

All for love, we become

Larger than lifesize, wondersome  
Great in the eyes of someone  
Larger than lifesize we become,  
Great in the eyes of someone

Larger than lifesize we become  
Larger than lifesize we become  
Great in the eyes of someone
