[Paula DeAnda]

As days go by

Chorus: Paula DeAnda

I'm missin'

You, baby

Patient

Waiting

For you

To hold you

To thrill you

To fill you

With tender

Kisses

Give you the love you've been missin'

Oh, I can't wait til you come back home

To have you all alone (As days go by)

Repeat Chorus

[Baby Bash (Paula DeAnda in background)]

(Verse 1)

Now I done came a long way, but ain't, too far

And hope, this love letter don't leave, a big scar

So baby, just hold on, and mama, just be strong

Cause no one

Knew the war would last for so long

The rockets, the red glare, the bombs up in the air

I'm just, doin' my duty, but missin' it right there

So as days go by, I'm coutin'

Every minute

Wishin'

I was home, for sure

With you in it

But the soldiers that I'm runnin' with are ready to blitz

This ain't no video

This is just as real as it gets

I made some life long friends, holdin' down the front  
line

And girl, I can't wait to get back in your sunshine

Repeat Chorus Twice

(Verse 2)

Now as days go by, my time was spent reflectin'  
On all the little things, you said, I was neglectin'  
They say  
You never know what you have until it's gone  
Didn't know back then, but I will, from now on  
When I try to channel out, all the fear and the stress  
I picture me and you, rollin', lookin' dressed to  
impressed  
Sendin' notes  
You'll be there, when I'm back from Iraq  
If you're good, to have a real chica, havin' my back

Hook 1: Baby Bash

Give everybody hugs and tell 'em, "I really miss 'em  
Man, your boy be back, when I'm through with my  
mission"  
Give everybody hugs and tell 'em, "I really miss 'em  
Man, your boy be back, when I'm through with my  
mission"

Repeat Chorus Twice

[Paula DeAnda]

To have you all alone  
As days go by  
As days go by

Hook 2: Baby Bash (Paula DeAnda)

One day  
We gon' get it together  
One day  
We gon' get it together (As days go by)

Repeat Hook 2
