- Old Before Our Time

when you're far away
how will i go on
day after day
just hold me tonight
i know there's nothing to say
waltz me across the floor once more
forget this war outside our door
i know that you will be gone before long
back to the front line and me left behind
old before our time
what will i do
with the crop standing tall
nobody here
to help me at all
longing for you
counting the tears as they fall
waltz me across the floor once more
forget this war outside our door
i know that you will be gone before long
back to the front line and me left behind
old before our time
will you come back
will you be the same
will i be in your arms dancing again
Chorus
