Cry like a baby
Over you, you, you
Cry like a baby
Over you, you, you
You

I walk alone every night
No where left to go (no where left to go)
My tears are falling like rain
Nothing left to show (nothing left to show)
I call your name in my sleep
Understand it's true (understand it's true)
So I walk alone through the streets
Still not over you (still not over you)

Cry like a baby
Over you, oh
I cry like a baby
Over you, what can I do

Cry like a baby
Over you, you, you
Cry like a baby
Over you, you, you
You

I lie alone in my bed
Wonder what went wrong (wonder what went wrong)
I fall asleep to the sound
Of some familiar song (some familiar song)
Should I call or should I wait
These last few hesitates and now you're gone (now
you're gone)
So I lie alone in my bed
Wonder what went wrong (wrong, wrong, wrong)

Cry like a baby
Over you, oh
I cry like a baby
Over you, what can I do

Day goes night
Black goes white
I still love you (love you)
If the lord above, hadn't invented love
I'd still miss you

So I cry like a baby
Cry like a baby
Cry like a baby
Cry like a baby
And I still love you (love you)

(Cry cry) Cry like a baby
Over you, oh
I cry like a baby
Over you, what can I do

(Cry cry) Cry like a baby
Over you, oh
I cry like a baby
Over you, what can I do

(Cry cry) Cry like a baby
Over you, oh
(Cry) I cry like a baby
Over you, what can I do

Cry like a baby (cry)
Cry like a baby
Cry like a baby (cry)
Cry like a baby
Cry like a baby (cry)
Cry like a baby
Cry like a baby (cry)
Cry like a baby
Over you, over you, over you

(Cry)
(Cry, cry)
(Cry)
(Cry, cry)
(Cry, cry)
(Cry, cry, cry, cry)
(Cry, cry, cry, cry)
(Cry, cry, cry, cry)
(Cry, cry, cry, cry)
