Woo hoo

Chorus:

I would go anywhere, do anything
Just to be with you
I would fly to the moon, fly to the stars
Just to be with you
And I'm so caught up, in a love so true
Just to be with you
Just to be with you

I don't know why I was so lucky
Don't know what I did to deserve you
The moment that I met you
I couldn't let you get away from me
No, no
There's something that you got baby
The touch of you is hot
And it makes me feel you oh
