

## A Foot In Cold Water "(Make Me Do) Anything You Want"

Visit "[\(Make Me Do\) Anything You Want](#)" on [MotoLyrics.com](#)

In the morning lights  
Feels so good, by me  
It could be so right  
You and me, tonight

Make me do anything you want  
Make me do anything you want

Work hard in the daytime  
For our dinner at night  
Comfort me at the right time  
Everything's gonna be alright

Make me do anything you want  
Make me be everything you want  
Make me do anything you want

In the morning lights  
Feels so good, by me  
It could be so right  
You and me, tonight

Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do anything you want  
Make me do....
