Hey, open the door
I want a new life
Hey, and here's once more
I want a new life, a new life

Babe, let's get one thing clear
There's much more stardust when you're near
I think I'm really being sincere
I want a new life, ummm, a new life
With you

Mmm, hey, open the door
I want a new life
Hey, and here's once more
I want a new life, a new life

Babe, let's get one thing clear
There's much more stardust when you're near
I think I'm really being sincere
I want a new life, ummmm, a new life
With you

Can't you see a perfect picture
Of you and me
But you know, it won't come easy
And what's more,
It's worth looking for, uhu

Babe, open the door
And start your new life,
Oh, your new life
Babe, on the shore
And start your new life
Your new life, once more.
