Lies pour out, but I know the truth [4x]  
Lies pour out [2x]

Burn me with a safe sound when the words want you  
alone  
The dreams and nightmares I have intend to get to you  
Need to wrap a body, baby? We'll slip and take the heat  
Lower guns; I'll lower mine and rip out your heartache

Now time to raise a glass in revenge  
The cries of one thousand souls I'll avenge  
You can hide behind your work in the road,  
But your blackened past is bound to explode

Sing it!

Lies pour out, but I know the truth  
Lies pour out, but you made me believe  
Lies - In love were your words  
Lies - The truth unfolds  
Lies - In love was your words  
Lies - The truth unfolds

The truth unfolds [2x]

I washed my hands in the Hell you've become  
I hardly know you - hardly know you  
We are never alone, in our hearts we are home  
I hardly know you, hardly know you

I washed my hands in the Hell you've become  
I hardly know you - hardly know you  
I am never alone, in my heart I am home  
In my heart I am home
