Nassau's gone funky and Nassau's gone soul  
We've got a doggone beat now  
We're gonna call our very own Mini skirts, maxi skirts  
and Afro hair do  
People are doin' their won  
Don't care 'bout you and me

Naussau rock and Nassau roll  
Nassau's got a whole lot of soul  
Listen to the drummer strum in his feet  
New York they say has got a whole lot of soul  
London town is too doggone cold  
Nassau's got sunshine and this you all know  
But we've gone funky  
And got some soul too  
Funky Nassau funky
