

A Global Threat "American Culture"

We're gonna fight it till the end and we won't be beat
down again

Your culture's fed into our veins, your preaching
tyranny and hate

To follow in your footsteps would be hypocrisy
So now's the time to fight for our beliefs

Are we the only ones here who won't judge your
sexuality?

Are we the only ones here who want equality?

Are we the only ones here won't judge you by your
skin?

Are we the only ones here who know together we can
win?

American culture U.S.A.

American culture K.K.K.

American culture nazi skins

American culture Politicians

AMERICAN CULTURE!
