You'll listen if I shout Who cares what it's about? Another thing that I don't need Your bible's my record sleeve I'm in your ear, then out your mouth Mind bomb, the next is you Rolls off your tongue, an easy out Mind bomb, the next is you On a site to check the scene Is what you say still what you mean? Selling cream for teenage jean They're all still IDLE THREATS Cause if a brick's been thrown I haven't seen It's in your head and out your mouth Mind bomb, the next is you Rolls off your tongue, but what are you about? Mind bomb, the next is you. Flags wave above a stagnant dream There's ugly faces and patched fatigues

Don't mess around, We've got it, Nothing left to explore Do you feel the same thing now that you did before? Did it already get you?
