(Payne/Downes)

So

Do you believe?

The truth

Of who we are

Everyone must kneel

Everyone must bow

No matter how you feel

In the sacred hour

And the sun don't shine

Cos the moon won't fall

And the sun won't shine

Is there light at all?

Its darkness day

Ghost

I feel it to the bone

Enough

The messages in stone

Now the day has come

Everyone will see

A new age has begun

For eternity

And the sun don't shine

Cos the moon won't fall

And the sun won't shine

Is there light at all?

Its darkness day
