

Asia "Daylight"

Visit "[Daylight](#)" on MotoLyrics.com

All of the nights when the light was low
And day seemed so far away
Darkness was endless
And I kept seeing ghosts turn in shades of gray

Wanted to see things just the way they used to be
Don't want those shadows hanging over me

Daylight, wanna see daylight
Wanna see daylight that shines all around
Daylight, I wanna see clear blue light
Wanna see daylight that shines all around

Hours and hours in towers
On the back road of tragedy
Voices are calling
And fingers come on crawling all over me

Then when I sit up and my hands begin to shake
Suddenly, there I see the dawn break

Daylight, wanna see daylight
Wanna see daylight that shines all around
Daylight, wanna see clear blue light
Wanna see daylight that shines all around

Only one thing keeping me sane

Daylight, wanna see daylight
Wanna see daylight that shines all around
Daylight, I wanna see clear blue light
I wanna see daylight that shines all around

Daylight, I wanna see clear blue light
I wanna see daylight that shines all around
