I don't believe but we've just another day,
'Cause kiss me good-bye then you kiss me away.
I don't believe but we've just another day,
I'm falling apart 'cause your walking away.

You told me the other day,
We'll never break up.
Now I'm here and I'm on my way,
Get ready to rock.
Ooh oh.

I don't believe but we've just another day,
'Cause kiss me good-bye then you kiss me away.
I don't believe but we've just another day,
I'm falling apart 'cause your walking away.

Walking away,
Walking away,
Whoa.

Just another day,
Just another day.

I don't believe but we've just another day,
'Cause kiss me good-bye then you kiss me away.
I don't believe but we've just another day,
I'm falling apart 'cause your walking away.

You told me the other day,
We'll never break up.
Now I'm here and I'm on my way,
Get ready to rock.
Ooh oh.

I don't believe but we've just another day,
'Cause kiss me good-bye then you kiss me away.
I don't believe but we've just another day,
I'm falling apart 'cause your walking away.

Walking away,
Walking away,

Whoa.

Just another day,
Just another day.

Just another day.

We got so fu-,
We got so fu-,
We got so f**king fresh made for you.

I don't believe but we've just another day,
'Cause kiss me good-bye then you kiss me away.
I don't believe but we've just another day,
I'm falling apart 'cause your walking away.

I don't believe but we've just another day,
'Cause kiss me good-bye then you kiss me away.
I don't believe but we've just another day,
I'm falling apart 'cause your walking away.

Walking away,
Walking away,
Whoa.

Just another day,
Just another day.
