Plain evil, I know what's on your mind  
Never say you're leaving me behind  
No trouble, get that from the start  
You know the cost of loving is your heart

I would never leave you  
I would never go  
I would never leave you

Never in a million  
Never in a million  
Never in a million years

Pure pleasure, the love that's in your eyes  
You never give me feelings in disguise  
Same fever, it comes on all the time  
Always lets me know what's on your mind

I would never leave you  
I would never go  
I would never leave you

Never in a million  
Never in a million  
Never in a million years

Live angel, you come to me and cry  
Like tears of joy come raining from the sky  
I'd never leave you, you knew that from the start  
I'll give it to you now straight from the heart

I would never leave you  
(Never in a million years)  
I would never go  
(Never in a million years)

I would never leave you  
(Never in a million years)  
I would never go  
(Never in a million years)

I would never leave you

(Never in a million years)  
I would never go  
(Never in a million years)
