

Asia "Reality"

Visit "[Reality](#)" on MotoLyrics.com

It's down your wire, it's on your screen
Pirate satellite, next to MTV
Insert your hand, subscription free
It's reality

Put on the suit, connect the chord
Free mind of city life, just ecstasy
Don't block the flow, only you can see
Your reality

And as the program runs surely to the screen
You can't hold back, you're in

Reality, so virtual
Reality, machinery
Designed by me but physical
Reality, just anything you wanna see

Is it wrong? It's in your mind
Banned by the chosen ones, how they rule your life
Exit that page, enter brave new world
From reality

And as the program runs surely to the screen
You can't hold back, you're in

Reality, so virtual
Reality, machinery
Designed by me so physical
Reality, anything you wanna see

Reality, reality
Designed by me, reality

Reality, it's so virtual
Reality, machinery
Designed by me so physical
