Laser, breathing on my window
Two strings, beating out of time
Koto, warning of the danger
Wake up, is your head still mine?

Now they give you reasons
To fight for love

That's enough in a paper world
That's enough said the Chinese girl
That's enough another city falls
Just because we're two sides of the moon

Data, streaming through my window
Chrome stars, whispering their lies
Black sky, hides approaching stranger
Reach out, two should now be one

Disregard the reasons
And look above

That's enough in a paper world
That's enough said the Siamese girl
That's enough another city falls
Just because we're two sides of the moon

In a paper world
That's enough said the Chinese girl
That's enough another city falls
Just because we're two sides of the moon

That's enough in a paper world
That's enough said the Siamese girl
That's enough another city falls
Just because we're two sides of the moon

In a paper world
That's enough said the Chinese girl
That's enough another city falls
Just because we're two sides of the moon

Two sides of the moon, two sides of the moon

Two sides of the moon [Incomprehensible]
Two sides of the moon, two sides of the moon
Two sides of the moon [Incomprehensible]
Two sides of the moon, two sides of the moon
Two sides of the moon
