"Very Merry Christmas"

Visit "[Very Merry Christmas](#)" on MotoLyrics.com

I think I'm starting to hear those, sleigh bells ringing.
I can almost feel the Christmas cheer.
I'm just waitin' to see some, Christmas snow and I
know,
That it's, finally here.

Yeah-h
Yeah-h
Yeah-h
Yeah

There's something good about Christmas time,
Something that just makes you smile.
Rocking around the Christmas tree,
The kind of fun you haven't seen in a while.
Do you see that kind of joy,
And do you know that kind of feeling?

So I hope that you have,
That you have
That you have,
A very merry Christmas.

Every young girl is trying to find a Christmas love,
Someone to hold by the sparklin' lights.
Everyone can gather around the Christmas tree,
And see that star at the top shinin' so bright.

Yeah-h
Yeah-h
Yeah-h
Yeah

There's something good about Christmas time,
Something that just makes you smile.
Rocking around the Christmas tree,
The kind of fun you haven't seen in a while.
Do you see that kind of joy,
And do you know that kind of feeling.

So I hope that you have,

That you have,
That you have,
A very merry Christmas.

All cheer in the air put your hands up
All cheer in the air put your hands up
All cheer in the air put your hands up up up

All Christmas joy in the air,
People all dancin' like they just don't care
We're gonna have a good time.

There's something good about Christmas time,
Something that just makes you smile.
Rocking around the Christmas tree,
The kind of fun you haven't seen in a while.
Do you see that kind of joy,
And do you know that kind of feeling.

So I hope that you have,
That you have,
That you have,

So I hope that you have,
That you have,
That you have,
A very merry Christmas.
