(Big Gemini in background)

[Big Gemini] Yeah...

Gemini...

[Flo Rida] I see ya, shorty

[Big Gemini] Ace 1

[Flo Rida] Flo Rida wanna know your name, girl (Yeah...)

Come here, let me holla at ya (Ay...)

Hey

[Verse 1: Flo Rida]

Shorty, I been watching you by

I wanna get to know you

Flo Rida, I'm so hypnotized

Shaped like a coke

Bottle

Lady, so don't you be surprised

I go for broke

Model

Babies turn me on, you're a dime

You on that level, shine

Like my Roley bezel

You deserve a medal, ma, if I let you know that this

Fella right here is feeling you

Something special 'bout

Little mama, yeah, you're sexy and cute

Girl, you ready

Apple bottoms, so that say you the true

Like my Chevy

You a problem, steal a show coming through

Hey

I wanna know your name, I wanna show you thangs

I wanna see you Get Low while I give you dough and fly
ya to the plane

We step out in the rain, that's real ghetto fame

Shorty, I hope we do it, just for you, when I'm on the
Cherry lanes

Chorus: Ace 1

Baby

I can't keep

My eyes off you

So hypnotized by
The way, you move
And I just wanna know
Baby, what's your name
And maybe later on
We can go somewhere

[Ace 1 (Big Gemini in background)]
Because
Little mama, all I really wanna do is
Get, with you (What's it gonna take, yeah)
Ye-ah

[Verse 2: Big Gemini]
Hey
Tell me what I gotta do
I ain't like these other suckers runnin' game on you
I'm sure you hear it all the time, but
I don't spit lines
I don't waste breath [{ *shit* }] on all that mess
If I said it, then I meant it, not to try to get between ya
And I ain't gotta wild you to make you a believer
Some like to make it rain, yeah, we can make it rain
Like JD once said, [{ *shit* }], Money Ain't A Thang
I ain't tryin' to impress you, look mama, you can tell,
would I gotta
But that don't matter
But that don't matter
And we can get it poppin' like these champagne bottles
Go and play hard to get along, it'll make me try harder
Come on

Repeat Chorus

Hook: Ace 1
Because
Little mama, all I really wanna do is
Get, with you
Ye-ah
Tell me, what it's gonna take to
Get, with you
Ye-ah

[Verse 3: Lil Rob]
How can she lose with what she use, I love the way she
moves
I love the way your body so smooth
I love the way she
Flows to the groove (Groove...)
And now she keeps
Lil Rob in the mood (Mood...)

Yeah
All it took was one look in her eyes, and I was
hypnotized
Get them swirls in my eyes, when this girl's in my sight
Have the site dynamite (Mite...)
Such a sight
To see, to me
The only girl I wanna bite
Cause I like it (Like it)
You likely delighted (Lighted)
To get you excited (Excited)
Keep you ignited (Ignited)
You must be
The baddest thing I ever seen, I think I seen you in my
dream
Or maybe it was a magazine
I don't really know (Know...)
But I get so excited
With you and your anatomy...

Repeat Chorus

[Ace 1]
Because
