

## **A Hole Inside** **"A Hole Inside"**

sitting in the hole you left  
and trying to hold it all inside  
I want to ignore our time stepped outside the door  
here in the darkness you feel like a stranger to me

Its all lost, it's out of my hands  
and you don't understand how to fix this  
its all lost out of my hands

and you dont understand how to fill the hole inside

I've stabbed myself so many times and only because of  
what you didn't do  
you come to me when you need a hand to set him on  
fire again  
just another meaningless night to set him in flames  
again
