[Lia:] I don't wanna let the chance slip away  
Why is my freedom taken away?  
Reason as against emotion  
I've gotta deal with extreme frustration

[ELISA:] All my efforts will never be in vain  
Endless desire like a haunting refrain  
[Both:] Such a pain, the ideal versus the real  
[L:] There is a way [E:] to change the world  
[Both:] Just count on me

[L:] So what if I sing off-key, who cares?  
Not good at drawing, no big deal  
[E:] Let me go for my one true belief:

[E/L:] Overcome myself/yourself

[Both:] "A Whole New World God Only Knows"  
[E:] I'll always be on your side  
(L: I know you're hurting inside)  
[E:] To be a knight [Both:] To be a light (L: For you)  
[E:] We'll be shining bright  
[L:] No more fears, [Both:] no more tears,  
everything will work out  
That's "God only knows"  
[E:] Don't get me wrong  
This is not real love but  
[Both:] I'll do anything for you  
[L:] Whatever happens in my life,  
turn the page and come of age  
(E: Remember, no one can judge me)  
[L:] Every end leads to a new beginning of the next stage  
[E:] Try to make my life complete, trust myself  
[Both:] Be strong and do my best  
Don't look back, carry on

[E/L:]The ideal/real, find a way out

[Both:]"A Whole New World God Only Knows"

[E:]Here's the thing I've realized

(L: Deep sadness you can't disguise)

[E:]Keep the goal in sight [Both:]so turn the tide (L: for you)

[E:]We can get over

[L:]One more try, [Both:]one more time

Everything has a reason

That's "God only knows"

[E:]Don't let me down

This is not real love but

[Both:]I'll never leave you alone

[L:]Whatever happens in your life,

look for the silver lining

(E: You know, some things are meant to be)

[L:]Even if you feel things

are too much to bear, the sun's shining

[E:]Try to find the answer to all our dreams

[Both:]Believe and do your best

Not too late, start over

[Choir:]

Be yourself...

Be happy...

It's your life...

"God only knows"

Find your love...

Find your way...

For your life...
