The Devil went down to Santa Maria, he was looking for
a soul to steal. Unfortunately he ran into four punk
rockers, 40z in hand, and looking for a meal. He said
Listen, I'll bet you I can play a punk rock show that'll
knock your studs off! If not, I'll give you all the beer you
want Well they finished those 40z and the bet wuz on,
A Human and His Std's strapped their dildos on.

6 days, 6 hours, and 6 minutes later, that punk rock
show, well it wuz over. They played for kids from SLO to
Grover, but the fact wuz apparent, the state wuz
clear...the Devil had won, they didn't come near. While
cleanin' up the blood, Satan walked through the beer.
He put his hoof out, confirming their fears. He said
Listen I won fair and square, so gimme what I came for
and I'll get out of your hair
And the punk rockers laughed cuz they had won, they
sold their souls to punk rock before 2001. And the Devil
cried, you never seen a demon so glum. So they jerked
him off, just for fun!
