Play the scene
Repeat it
Play it again
I need it

Play the scene
Repeat it
Play it again

Know this scene bit by bit
The heat is on - the fuse is lit
I've been down this road before
Searching for you all across the floor

I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love

Play the scene
Repeat it
Play it again

The moment's burned into my mind
Your skin's so bright, those disco lights
Your body kills, your dancing too
Oh no I have fallen in love with you
And I let you know I'll be around
Every club in every town
Searching for the girl I met
I'm haunted by visions I can't forget

I think a lot about you my love
I think a lot about you my love
Oh, I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love

Play the scene
Repeat it

My whole world has been turning since I first met you
I think a lot about you my love
I think a lot about you my love

And my heart has been burning since I first met you
I think a lot about you my love
I think a lot about you my love

My whole world has been turning since I first met you
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love
I think a lot about you my love

My whole world has been turning since I first met you

Oh my heart has been burning since I first got you
I think a lot about you my love
I think a lot about you my love
My love, since I met you,
I think a lot about you my love
I think a lot about you my love
My love,

Oh won't you?
Play the scene
Please repeat it
Play it again
You know I need it
Play the scene
And please repeat it
Play it again
You know I need it

My whole world has been turning
Since the night I met you
And my heart has been burning
Is your heart burning too?
