this ain't no way real love should be..

took you back once, took you back twice  
took you back, three, four, five times  
they said these streets is over  
boy youve been close to lies  
took you back once, took you back twice  
took you back, three, four, five times  
cant see the light, but you, somebody help me!

[J.D.]  
Krayzie! give her a lil bit

[Krayzie Bone]  
now you look from the jump  
and a nigga was thugged out, but you bugged out, n  
start trippin  
flippin' on me all time.. and its been like this all my  
life..no matter how I try  
guess it's the thug in me, got my mind on my money  
man

I'm spending my time on the grind tryna shine, I'm  
concentrating on running thangs  
I've been tryna hold it down, and you steady tellin' me  
it's over now  
she always talk loud, she always leave me but always  
come back around  
that's just what we go through, and you know it's so  
true  
every time I slip up she behind me, gon' be right there  
to remind me

[Chorus]

[J.D.]

Uh yea, haha, just a lil bit, Layzie! give her a lil bit

[Layzie Bone]

can we take a long walk on the beach, get away from  
the streets  
baby girl, me and you need to rendezvous  
Cancun next week, how that sound to you?  
I've been meaning to spend a little time witchu  
I can tell you fed up from all of the promises I've been  
making lately  
and I had to deliver but I been so caught in my hustle,  
tryna make this payment  
and I shoulda considered your feelings  
I shoulda been better about it  
I shoulda been grown, not childish  
I shoulda been way more polished  
but my hustle done paid off, and I'm ready to spoil  
you..love  
come look, what cha boy gon do? (gone do), let me  
make this up to you (to you)

[Chorus]

[J.D.]

Uh, uh, Bow Wow! give her a lil bit

[Bow Wow]

weezy girl, I can't believe what you sayin'  
you know you got it, should meet with my fans  
but every time I get a break I'm layin'  
where? in your arms all night and day playin'  
you wont some time, I send you jacob, want sunshine  
then take a vacation  
we ain't gon make it if you keep complainin, everybody  
go through changes  
love is a dangerous (thing)  
(why?) it's full of happy and sad faces

break it up to make up later, talk it out so it ain't no  
anger  
we need more communication, you should have some  
consideration  
'cause you knew from the day we met  
what, what type of player you was dealing wit. haha

[Chorus]

[J.D.]

Uh huh, uh huh, wish! give her a lil bit

[Wish Bone]

everything I do, just for me and you, stack a little paper  
so its never rainy days  
I got you, but just for me then you got to, understand  
that I hustle, hustle  
diamonds things, I gotta hustle, hustle, anything that  
brings the weight up  
see a real thug too its in his nature, its in his nature  
not tryna say that you about that paper, but me and  
you, yes we like that paper  
overseas trips, diamonds on the wrists, you must  
admit, your boy gets that paper  
I like bossin, girl, girl, but you beside me, slide wit me,  
slide wit me  
try and take it away thats when I ride and ride
