What can I do if this is my reaction  
'Cause the trance of pretty pretty boys like you  
I need your love it's on my mind  
The special love it's hard to find  
The night is cold without you don't get away

A-a-a-ah loving passion  
Just loving passion here-about  
Ah love reaction  
Base on time that she should know  
Love reaction, love reaction  
And kiss to kiss too fine  
Love reaction, love reaction

If you ever lose control  
Break the heart into a sound  
Don't tease no more  
Don't tease no stars  
And I found love for you  
Just like a fool I'm telling the beat  
From me to bottom mine and... nervous mind  
It's waiting for me and love for you  
And waiting for me until the end of time

I feel in you if easy call attraction  
For your love there's nothing boy that I can do  
I made you lover of my dreams  
I wanna be your dancing queen  
The night is cold without you don't get away
