"That's Got To Change"

Visit "[That's Got To Change](#)" on MotoLyrics.com

Ever since I met you baby
it's always the same old song
I done this or I done that
it's always done all wrong
That's got to change
before I go insane

I don't need nobody tellin me
that I told you so, so your wrong
don't you see
If you love me stand by your man
and tell me yes dear ,yes you can

I fell in love the first day that I met you
and I don't think that will ever change
I'll leave it up to you
but if you keep pickin at me
You'll be alone you see

I don't need nobody tellin me
That I told you so, your wrong
don't you see
If you love me stand by your man
and tell me yes dear ,yes you can

I don't need nobody tellin me
That I told you so, your wrong
don't you see
If you love me stand by your man
and tell me yes dear ,yes you can
