Kingston... Brandy... Departed... #1

[Sean Kingston:]

Lots of stuff on my mind  
Don't go please if you have tyme  
Cause I can't let you goooo

(So wat?) so wat you gonna leave me like dis, like  
Kanye just so heartless  
Don't say yo don't need me no-ooo  
We did had our ups and downs n downs n ups (up)  
You were there when my life got rough (rough)  
And now I don't wanna see you get hurt no more  
Said he can't do it like me (nope) is he from west india?  
(nope)  
So yon need to leave him I'd come by for sure (for  
sure)

[Brandy:]

Oh when you feel your hearts guarded  
And you see the brakes started  
And when the clouds above Departed  
You'll be right here with me  
And when your tears are dry from crying  
And when the worlds turned silent  
So when the clouds above Departed  
You will be right here with me.

Oh oh [x10]

[x2:]

I will be right here with you  
You'll be right here with me

When your trapped and there's just no key  
And you can't breathe  
I breathe for you  
The fire's got you down on both knees  
And the walls are closing in but I will  
Break it through  
And when you feel alone  
I'm a be at home

Whenevers comes and go  
You know I got you

Oh when you feel your hearts guarded  
And when you see the brakes started  
And when the clouds above Departed  
You'll be right here with me  
(you'll see the sun)  
And when your tears are dry from crying, crying  
And when the worlds turned silent, silent  
So when the clouds above Departed  
You will be right here with me.

I will be here right beside you  
Every step you take, yea  
I will be your strength your shelter  
Shield you from the rain

[x2:]  
(oh when you feel), oh when you feel your hearts  
guarded  
And when you see the brakes started  
And when the clouds above Departed  
You'll be right here with me (right here)  
And when your tears are dry from crying  
And when the worlds turned silent  
So when the clouds above Departed  
You will be right here with me.

[Brandy:]  
[x4:]  
I will be right here with you  
You'll be right here with me  
[Sean Kingston:]
