Ohhhh can you hear me now

Can you hear me now

Can you hear me now

Can you hear me now

Yeah am I coming through

Am I coming through

Is it sweet and pure and true?

To looking back this morning

City air summer show me

I was looking like I'd never seen a face before

Here we go now let's slide in through the open door

Pictures and things that I done before

Circling around out here on the floor

I'm dreaming of this and I'm dreaming of that

Regretting nothing think about that

Seeing waves breaking forms on my horizons

Yeah I'm shining

Seeing waves breaking forms on my horizons

Lord I'm shining

Oh are you hearing me like I'm hearing you

Oh are you hearing me like I'm hearing you

You know I almost lost my mind

I can't explain where I've been

You know I almost lost my mind

I can't explain where I've been

You know I almost lost my mind

I couldn't explain what I've seen

And I'm happy to have seen it too

Now that the images are fading away

Seeing waves breaking forms on my horizons

Yeah I'm shining

Seeing waves breaking forms on my horizons

Lord I'm shining

Oh are you hearing me like I'm hearing you

Oh are you hearing me like I'm hearing you

You know I almost lost my mind

I can't explain where I've been

You know I almost lost my mind

I couldn't explain the things I'd seen

But now I think I see the light

Now I think I see the light

Lend me your hand

Lend me your hand

Lend me your hand

Lend me your hand

Lend me your hand

Seeing waves breaking forms on my horizons

Yeah I'm shining

Seeing waves breaking forms on my horizons

Lord I'm shining

Oh are you hearing me like I'm hearing you

Oh are you hearing me like I'm hearing you

You know I almost lost my mind

But now I'm home and I'm free

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Oh my my my mind

You better go defend now

Or you better go to bed now

You better go defend now

Or you better go to bed now

You better go defend now

Or you better go to bed now

You better go defend now

Or you better go to bed now

You better go defend now

Or you better go to bed now

You better go defend now

Or you better go to bed now

(Am I coming through?)

(Am I coming through?)

My heart and my soul they are free

My heart and my soul they are free

You know I almost lost my mind

But now I'm home and I'm free

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Did I pass the acid test?

Oh my my my my mind
