See that girl?

Look at her good.

That's something you don't

see every day, now.

Dig those eyes...

Ain't they a prize?

They sure can get to you,

and, hey now,

Look at that crazy smile

I bet you can't believe

She was mine for a while,

Ain't she somethin'?

See that guy?

Right by her side.

He's feelin' proud, and

don't he show it.

Look and see,

That could have been me.

Would you believe I'd go

and blow it?

I let her slip away,

And I tell myself I'm okay

But it just tears the

heart out of me

When I see that girl....

When I see that girl.

(break)

I let her slip away

And I tell myself I'm okay

But it just tears the

heart out of me

When I see that girl....

When I see that girl....

When I see that girl
