I'm in trouble, I'm in dire straits  
Between a rock and a hard place  
I'm in love, you're cold as ice  
Feels like I fell from paradise

I'm in a haze, don't know what to say  
Should I go? Why should I stay?  
Seems your ways got out of hand  
Yes I'm a man, I'll make you stand

Not enough, not as soon  
Kiss me once, every boom boom

One last kiss, one last kiss  
Might remind you what you miss  
Don't deny it, make it true  
It won't break your heart in two

Na na na~!

I'm in a love that I can't refuse  
A better hurt, a little confused  
Cause I'm your woman, gotta treat me right  
All day and all of the night

Not enough, not as soon  
Kiss me once, every boom boom

One last kiss, one last kiss  
Might remind you what you miss  
Don't deny it, it'll make it true  
It won't break your heart in two

One last kiss, one last kiss  
Might remind you what you miss  
One for me, one for you  
That's all we gotta to do

Baby don't apologise, you just have to realise  
Don't wanna leave you, make you feel sad, no  
Baby love will make you smile if you battle for a while  
'Cause you're a battle, lose control

Na na na

One last kiss, one last kiss  
Might remind you what you miss  
Don't deny it, it'll make it true  
It won't break your heart in two

One last kiss, one last kiss  
Might remind you what you miss  
One for me, one for you  
That's all we gotta do
