Somebody sure, save me
Somebody ... love me
Somebody hold, break me
Somebody should, wake me
This is my body I can't leave myself on the line
This is my soul, I need ... in my love time

Somebody ... expel me
Somebody hold, leave me
Somebody, ... surround me
Somebody scared, embrace me
This is my body I can't leave myself on the line
This is my soul, I need ... in my love time

Cause I ... light in the skies
And the one I stood behind,
Make sure that I never let him inside
Pretender, into the night
Pretender, into the night

Somebody cold, warm me
Somebody fear, reveal me
Somebody sad, keep me
Somebody else, replace me
This is my body I can't leave myself on the line
This is my soul, I need ... in my love time

Cause everything is easy till you and I ... your face
You see it as a failure, but find that it's your saving
...grace
Pretender, into the night
Pretender, into the night

Everything is easy till you contemplate to your end
And your ending of ...with now or forever ...
Pretender, into the night
Pretender, into the night
