

A Letter For Sally "Goodbye"

Visit "[Goodbye](#)" on MotoLyrics.com

How Much dust you swallowed
Humiliated and restless
Let me understand wich are your thoughts
Explain to me your words, why were them full of pain?

Please tell me what's your sign
Before saying me goodbye
Please tell me how I'll die
Before saying me goodbye

Next step to save yourself
Take and run 'til graveyard
Search the tombstone with your name
They built it for you, don't you think it's good?

Please tell me...

Please tell me...

Time to decide
Will it come, so you'll try
To leave all doubts
And save your life

Please tell me...

Goodbye...
