Verse

My knife on your neck
Were standing eye to eye
My hand on your hip
We'll dance tell you die

Pre chorus

I'm back for revenge and
I want your head
Bloody hands open heart
I want you dead

Chorus

I will laugh at your pain
I won't cry over your death
It's your fault I'm insane
This kiss is for your Last Breath

Verse ..2

I'm one step behind and I soon will find you
Only one step behind I'll kill you

Pre chorus

Chorus

Interlude

And ill breathe so heavy in your ear
Are you screaming with in
Your blood soothes my tears
Are you scared that I'm here
Do you have any last words?
Before the knife closes in

Chorus
