Verse

Don't even lie  
Your secrets out  
Causes every day  
You ripped my heart out  
You found my heart  
In your goodbyes  
Your life's a plays  
You act a lie

In my dreams you sing to me  
The night mares I have don't com in my sleep  
I take this knife it talks to me  
It tells me to it tells me...

Chorus

Im falling down im done with you  
And I cant forget you  
Your heart belongs to someone new  
And I cant forget you now

Repeat Verse .. 1

Verse ..2

You know what love is its when you dream  
From when you wake up to when you sleep  
I now believe in broken hearts  
And shattered dreams can you hear me scream
