lately i've been runnin into our old friends

somewhere in the small talk someone always asks
where you've been

so i tell them what you told me and they cant believe
we're through they ask me

what i'm doin now and in case your wonderin too

i breath in and breath out put one foot infront of the
other take one day at a

time till you find i'm that someone you cant live without
until then i'll breath

in and breath out

now i've got every reason to find someone new cause
you swore up and down to me

that i've seen the last of you but the way you love me
girl it left me hopin and

holdin on until this world stops turnin round and my
heart believes your gone

i breath in and breath out and put one foot infront of
the other take one day at

a time until you find i'm that someone you cant live
without

but until then i'll breath in and breath out

cause we were meant to be girl there's no doubt and if
it takes the rest of my

life for you to figure it out

i'll breath in and breath out and put one foot in front of

the other take one

day at a time till you find i'm that someone you cant
live wihtout

but until then oooh i'll breath in and breath out

Title: show me the way to your love

I can see the beginning

and i don't see the end

wanna hold and you and never let go-oh no

for as long as were given

and we never pretend

i believe in the future untold

we'll be stronger together then we would be apart

i can feel you inside my heart.

everyday, everynight

fill my shadows with light

when i feel all alone your heart is my home

everynight-everyday

you show me the way to your love

show me the way to your love

baby now that ive found you realise i was lost

didnt know love could treat me this way

maybe what it comes down to when it matters the most

is to find joy in everyday

we could sink to the bottom

we could climb to the top

cause together we'll never give up

chorusx1

doesn't matter if we're far away

got each other and that's all i ever need to know

someone to call my own

we'll be together

finally-were meant to be

everyday-everynight

fill my shadows -shadows with light

everynight and everyday you

show me the way to your love

chorusx1

show me the way to your love
