Curtain up, scene one
Our eyes meet with worst intentions
Cause no good can come from this
I can read your lips, it's like you're screaming come on
Come and grab my hips
And lets get crazy for one night baby

It's like every seven seconds that I'm freaking out
Sexy got me upside down, I'm never gonna come down
Take it to the bed, your clothes on the floor
And when you hit the lights, shut the door
You'll get what you're asking for
Throw away the key, you'll re-enact your fantasies
Cause you know you'll be asking for more
You know you'll be asking for more

Act one, scene two

You've memorized the script and you know what to do
Cause you're the damsel of the show
You've been throwing signs left and right
And now we're here in the middle of the night
So lets get crazy for one night baby

It's like every seven seconds that I'm freaking out
Sexy got me upside down, I'm never gonna come down
Take it to the bed, your clothes on the floor
And when you hit the lights, shut the door
You'll get what you're asking for
Throw away the key, you'll re-enact your fantasies
Cause you know you'll be asking for more
You know you'll be asking for more
