[40 Cal.]

Nigga bring your calvary, cause Cal is me

Is a techni-cality, you'll lose calories

From my calibar, carry the, comp to the hospital

When he date your calendars, flip it on y'all who copy
cal

Watch me now, rock the crown, now one

Smooth like the lotion, you miss me when cal gone

It's the set, you know we real, my weapons only steel

Cause like Evander we give niggas the Holyfield

I told G chill but he had to go

So I grip the calico, let the shit blow like calidro

The 40 cali go, hard like calculus

Your boy carry burners so large I get calluses

So pass the calamine, this aint a battle rhyme

Your moms put my name on her behind like Calvin Kline

For the thousandth time you see cal spitting

Why these juniors after my name like Cal Ripken

From, California, the cal-cutter

I got that dust called tical you gotta say my style butter

Brown color, the white like calcium

Niggas tryin to scheme on my brothers, but cal see
them

Be on the ground leaking, your bowels and guts

Will be the same dude speaking, like Calvin Butt

Who be at his wake, preacher Reverend Calvin Butt

You a G cause you touched for a thousand bucks,

WHAT!

Call me Calhoun, with the ex-caliber

Think the pen almighty than the sword then I challenger

Cause off the calendar I'm calling out haters

Cause I Bomb up your turf, call me 40 cal-qaeda

To calculate mine you need four calculaters

I get money for real word to my daughter Calasia

I'm, so lyri-cal, y'all is spiri-cal
Well I'm raping the track, you can call me Mr. Cal
Or Mysti-cal, with that cha cha bow
