Tell me whatever happened to the radio  
Do they still play the songs you wanna hear  
On the stereo  
Do you still like the bands you loved a year ago  
Would you still like me if we want to be on the radio  
Like me, if we were on the radio  
Like me, or are they just played-out

Tell me whatever happened to the radio  
Do they still play the songs you wanna hear  
On the stereo  
Do you still like the bands you loved a year ago  
Would you still like me if we want to be on the radio  
Like me, if we were on the radio  
Like me, or are they just played out now

Tell me, tell me whatever happened to the radio  
Tell me, tell me whatever happened to the radio
