Yes your motives are tasteless
But your mouth is so bittersweet
When my worst fears surround me
I'll just wait for you to sweep me right off my feet

And your face turns blush red
As you scream for forgiveness
The mistakes you can't forget
Is the regret that you'll live with

(Hey!)
We're starting to break up
We're starting to break up
So please don't let this be the end

I'm not afraid of the consequence
I'll take the blame for it all
Oh, for the sake of the argument
I'll just wait for my conscience to call

(Hey!)
We're starting to break up
We're starting to break up
So please don't let this be the end
We're starting to break up
We're starting to break up
We're starting to break up
So please don't let this be the end

This is something new (oh)
And it's not what I'm used to (oh)
This is something new
And I just might end up losing you

(Hey!)
We're starting to break up
We're starting to break up
So please don't let this be the end

Please don't let this be the end
Please don't let this be the end

Please don't let this be the end
Please don't let this be the end

All yours, all that we've done (were starting to break
up)
Can't forget the places that you have been (were
starting to break up)
I know that I'll see you again (see you again)
