Can we pretend for one second that we are together
What's the point of keeping my feelings at bay
It takes a lot of me to get the nerve
To wake up, everyday

And what if I don't, would you even care?
Would you even care?

Forget everything that we have done
Erase me from your memory
Don't call, don't ask about me
Until the day hell freezes over

I can't remember the last time I saw you smile
It might have been around this time last year
It takes a lot of me to get the nerve
To tell you everything is okay

And what if I don't, would you even care?
Would you even care?

Forget everything that we have done
Erase me from your memory
Don't call, don't ask about me
Until the day hell freezes over

It's gone before you know it
You can't let go of something you've never had
It's ash until you burn it
I hope I never see you again

And what if I don't, would you even care?
Would you even care?

Forget everything that we have done
Erase me from your memory
Don't call, don't ask about me
Until the day hell freezes over

When hell freezes over
